

## **NovaCare Rehabilitation COVID-19 Reopening Plan**

### **Screening Procedures**

- All employees are screened daily, per CDC guidance, upon reporting for work.
- All patients and visitors are screened daily, per CDC guidance, prior to entering the facility. See attached forms.
- All employees, patients, and visitors receive temperature checks upon entering the facility daily. Those with temperatures of 100 degrees or greater are instructed to exit the facility and seek medical advice.

### **Masking**

- All employees, patients, and visitors are required to wear face masks inside the facility.

### **Social Distancing**

- Patient scheduling consists of 1 patient per hour per therapist to ensure social distancing.
- Treatment areas are limited to patients and clinical staff only.
- Transportation providers are asked to remain outside of the facility.
- One caregiver may accompany minors and patients with special needs.
- Private treatment rooms are utilized when available/appropriate.
- Plinths and exercise equipment are spaced appropriately to maintain social distancing.

### **Cleaning/Disinfectant Procedures**

- All patients and visitors are instructed to wash/sanitize their hands upon entry and prior to exit.
- All plinths and exercise equipment are cleaned with disinfectant following each use.
- All equipment that cannot be disinfected (resistance bands, therapy putty, etc.) is removed from the facility or assigned to each patient for individual use.
- All high-touch areas throughout the facility are cleaned with disinfectant multiple times daily.
- Pillow cases, towels, and gowns are laundered appropriately after each patient use.
- All porous materials, such as magazines and pamphlets, are removed from the waiting area.
